Notes

On the basis of possession and usage, this is the western ½ share of a plot which is empty. In the eastern part there seems to be an incursion by an adjacent building.

The plot occupies a position southeast of the original location of the village and is located west and at a distance of about 40 meters from the main road to Troodos. It is bordered along its southern border by a public asphalt road, with a frontage of about 20 meters. It has a regular rectangular shape and a surface sloping to the north. It is located at a lower altitude than the road with which it abuts.
